

# Electronic floor scale

M321600

**ADE**

The fully automatic mother and child weighing function will allow determining the weight of new born and small children fast and effortless in the arms of a nurse, parent or field worker just by starting the scale via the tap on function. The display can be turned at a touch of a button towards a helper or towards the user standing on the scale. A lightweight splash proof carry bag for transport is supplied as standard. A fully sealed on and off switch is placed beneath the scale to insure unwanted battery use. The light coloured slip resistant platform protects the surface from heating up in bright sun light.

## Technical specification:
