

# ProBlend

## A new generation of blender

The ProBlend combines efficiency with quality and a patented pendular blending method ensures power, efficiency and productivity.

### Key features:

- Unique, patented pendular blending system delivers a power from 28kg up to 126kg per paddle
- Excellent results with any type of matrix
- Automatic adjustment of power delivered to the matrix
- Automatic closing of bags
- Starts on closing and stops on opening
- Simple to use
- Compact, ensuring space optimisation
- Easy for cleaning – removable paddles, built-in waste drawer for spillage collection, stainless steel chamber, smooth surfaces and rounded corners
- Compatible with ProDilute

## Features and benefits

	ProBlend
Pendular blending power	Up to 126kg per paddle
Capacity	50mL to 400mL
Noise level	48 dBA
Progressive blending, adapted to the matrix	Y
Automatic closing of bags	Y
Intuitive bright display	Y
Vibration free	Y
Bright display	Y
Removable paddles	Y
Stainless steel chamber	Y
Waste tank integrated into the door	Y
Speed	Variable, up to 520 strokes per minute
W X D X H (cms)	22 x 41 x 34
Weight	14.6kg
Electrical supply	230v – 50Hz
Power	90W
