

Micro-Hematocrit Centrifuge

HC-2518M

Precision control system

High precision microcomputer control system, LARGE LCD display the time and speed

Ergonomic design

Electric lid lock, easy and reliable.

Frame is 3 tires protection steel jacket, with stainless steel chamber.

Stepless speed regulation

Adopts micro brushless motor, free-maintenance, no powder pollution.

Over-speed and imbalance protection.

Product Features

- Microcomputer control, LCD display
- Adopts micro brushless motor, free-maintenance
- Stainless steel chamber
- Speed, centrifugal synchronous display
- Magnetic induction door lock, electric door
- Over-speed and imbalance protection.

Items	HC-2518M
Max speed	12000rpm
Max Rcf	15800xg
Speed accuracy	24pcs Capillary
Optional rotor	20pcs x1.5/2ml
Noise	< 55dB
Timer range	0min~99:99:59(hh:mm:ss)
Speed accuracy	±20r/min
Power supply	AC 220V 50HZ
Power	150W
Weight	13kg
Dimensions (LxWxH)mm	355x270x205
